

Gerrit Everson is presently the Partner Demonstration (PD) Technical Lead on the Advanced Air Mobility (AAM) National Campaign (NC). He oversees 5 tactical teams and one procurement activity on an initiative that will Test and inform capabilities that are critical enablers for AAM. Gerrit has more than 22 years of experience in the aviation industry, including 14 in test and evaluation and program management. Prior to Joining the National Campaign, Gerrit served as the Chief of Flight Operations for NASA Goddard Space Flight Center (GSFC) where he was directly responsible for all NASA aircraft and airfield operations at the Center. During his 9-year tenure at GSFC, Gerrit also served as the Aircraft Office Chief Engineer, Research Test Pilot and flew global missions in support of NASA's Airborne Science Program. Everson has prior experience as a corporate and military test pilot, graduated from the U.S. Naval Test Pilot School and has more than 2,500 flight hours in 35 aircraft types.
